

This End User License Agreement (“EULA”) between you and Font Spectrum becomes a binding contract once you download and/or install the Fonts provided to you by Font Spectrum via Future Fonts.

If you have downloaded multiple versions of the Fonts with multiple versions of the EULA, the most current one will govern.

1. Grant of License

Upon payment in full, Font Spectrum will grant you a non-exclusive,terminable and non-transferable license to use the Fonts in accordance with the following terms and conditions. You may not exceed the scope of this license. If you have negotiated and agreed to any additional terms and conditions, those must be in writing and signed by Font Spectrum. All intellectual property stays with Font Spectrum.

Fonts: the digital typeface software made available to you by Font Spectrum, the font design embedded within the Fonts, as well as any documentation and add-ons related to the Fonts.

You: the licensee, the organisation on whose behalf the fonts are used and whose name is specified during the checkout.

Font Spectrum: the foundry granting you the license and offering you their products, based in the Netherlands and consists of Daniël Maarleveld & Edgar Walthert.

Website: one domain (URL) and its subdomains, as well as any forwarding and/or mirroring URLs connected to the same domain.

The entry-level license grants the rights for desktop and online usage for 1 person on all their desktop/mobile machines. We changed our licensing model to company size, rather than users, because this seems to be a fairer model to license typefaces. The size of the company or organisation the font is used for determines the level of the license. The company size is the count of all employees within a company (full-time, part-time), and the contractors (such as design agencies) that have access to the fonts. If your usage exceeds the license you purchased, you are required to upgrade your license by purchasing additional license levels according to the chart below.

To make purchasing easy, we work with levels of licenses. For example, if you initially purchased a level 3 license and need to upgrade to level 5 because your company has grown in the meantime, you can buy an extra level 2 license. The pricing for additional licensing is the actual price at the time of upgrading, not the initial purchase price.

Level	Company Size		Game/App
1	1	person	x
2	2 - 5	people	x
3	6 - 10	people	x
4	11 - 20	people	x
5	21 - 50	people	starting level
6	51 - 100	people	
7	101 - 150	people	
8	151 - 200	people	
9	201 - 250	people	
15	251 - 500	people	
20	501 - 750	people	
25	751 - 1000	people	
50	1000 - 2000	people	
99	2001 - infinity		

2. Redistribution

You may provide your Fonts to vendors, contractors, co-workers or colleagues as long as these are covered by your license size. Each user that has access to the Fonts will count towards the total users permitted under your license and will be bound by the terms of this EULA.

3. Permitted Use

The font can be used globally for personal or commercial use and for an unlimited period of time.

- a. You may embed the font into documents (such as PDF, PowerPoint or eBooks).
- b. You may manipulate, alter and/or animate typographic compositions made with the Fonts with the help of design and editing software.
- c. You may convert the Fonts into outlines and customise or rework it to fit production needs (e.g. logo design).
- d. You may use the typeface inside a mobile app or game by purchasing the according license (starting at level 5).
- e. Backups are important! You are allowed to have unlimited backup copies of your licensed fonts.
- f. You may use tools enhanced by artificial intelligence in your creative process (for example Adobe Firefly).

4. Prohibited Use

The fonts of Font Spectrum are made with love, fun and playfulness. We do not appreciate seeing them used in any connections to hate speech or the war industry. We also care about the future of our children and therefore don't like to support exploitative sectors such as the fossil fuel industry or blockchain related speculation and art.

- a. You may not open or edit the Fonts in any font editing software. You may not reverse-engineer the Fonts, trace them, convert or in any way reproduce the design of the Fonts.
- b. You may not add new characters to the Fonts or commission other contractors to make modifications, replicas or knock-offs of this font. Any and all modification requests will be handled by Font Spectrum.
- c. You may not sell, rent, sub-license, or otherwise distribute the Fonts to anyone outside the limitations of this EULA
- d. You may not convert the fonts to other formats (such as for the production of web font-kits with the help of online or offline tools). In case you need a special format or subset, contact Font Spectrum.
- e. You may not bundle the Fonts with any software, game or app where the fonts would be freely available to the end user (such as in mock-up products for Envato).
- f. You may not store the Fonts within publicly accessible projects on cloud-platforms (such as git repositories).
- g. All fonts of Font Spectrum are prohibited from the uses for artificial intelligence training or in data-sets.

In case you are interested to include the font in templates or software that will provide the use to third parties, pleas get in touch with us via email mail@fontsspectrum.com

For request that are outside of this End User License Agreement, we are happy to talk about a custom solution.

5. Font Formats

The desktop Fonts are provided in TTF or OTF format, and the web fonts are delivered as WOFF and WOFF2.

You are not allowed to generate your own web fonts or use other font-conversion software such as TransType. You may subset the fonts with the help of fonttools.

You may only use the provided or subset .woff and/or .woff2 fonts for serving the fonts on the web via @font-face or other web font embedding standards. The use of the TTF or OTF files on the web is prohibited. Upon purchasing proper licensing, a TTF or OTF file may be embedded inside a game or app granted that the end user cannot directly access it.

We thank you for reading this End User License Agreement.

For any further question, please get in touch via email mail@font_spectrum.com or give us a call +31(0)20 89 32104

6. Updates

The purchase of any version of the Fonts gives you the right to free future updates as long as the fonts are served on the Future Fonts platform. Font Spectrum does not have an obligation to continue making updates on a font and may stop development at any time.

7. Copyright

The copyright and intellectual property of the fonts stay with Font Spectrum. This EULA grants you the right to use the fonts within its limitations.

8. Warranty

The Fonts sold on Future Fonts are a work in progress and are sold "as is". Font Spectrum will do their best to communicate the state of each font before you purchase and to include requested features within a feasible time frame. You acknowledge that there might be bugs and flaws and/or missing characters in these Fonts. There is no warranty that the Fonts will perform perfectly in any particular usage case.

9. Limitation of Liability

Font Spectrum is under no circumstances liable for damages or loss of revenue that may arise in connection with this EULA. Any liability determined by a court of law will not exceed the licensing costs paid by the licensee for the Fonts in question.

10. Legal

This document is governed by Dutch law. In case a part of this agreement is found to be invalid, it will not affect the validity of the rest of this document.

11. Termination

You can terminate this agreement at any time by deleting and uninstalling all copies and backups of the font software. This does not grant a refund of the licensing fee. The foundry may terminate this agreement if the licensee fails to comply with the terms and conditions of this EULA. Following this termination, the licensee must delete and uninstall all copies and backups of the font.
